- Equity reference price: 0.
- Equity strike price: 0.
- Equity cliff months: 0.
- Equity vesting months: 0.
- Service bond: 0.

Offer terms

Kestrel Systems | Fictional terms continued

1. Salary and CTC

Fixed annual gross equals basic plus HRA plus special allowance. Annual CTC equals fixed gross plus target variable pay, employer PF, gratuity provision and annual equity reference. Employee PF is deducted from gross and must not be added to CTC again. Employer PF and gratuity provision are not monthly cash payments.

2. Variable pay and payroll

Variable pay is a discretionary annual payment at financial year end, between zero and the target stated above. It is not guaranteed. Fixed gross is paid monthly in twelve equal installments. Both employee and employer PF are contractually fixed at INR 1800 per month for this fixture. Professional tax and income tax are deducted as applicable; see the separate historical payroll test worksheet.

3. Joining, relocation and leaving

Joining bonus and relocation reimbursement are outside the annual CTC shown above. A joining bonus, if nonzero, is paid with the first salary. If the final employment date is before the stated clawback month, the full gross joining bonus is repayable; at or after that month no repayment is due. Relocation is a reimbursement against receipts up to the stated maximum and has no clawback. There is no service bond. The notice period is calendar days; any notice buyout must be agreed separately.

4. Equity and gratuity

Where equity units are nonzero, these are fictional RSUs with zero strike price. Twenty-five percent vests on completion of month 12, then the balance vests equally each month through month 48. Unvested units lapse on exit. The reference price is illustrative, not a guaranteed exit price; the value may be zero. Annual equity reference is one quarter of the original grant reference value. Gratuity provision is an employer CTC estimate, not a promise of payment or a substitute for the eligibility rules applicable at exit.
